## 1 Overview

This plugin allows you to more accurately track changes to certain backend modules. So you always have the exact overview which user has made a specific change. You will receive a detailed list of the changed values. Changes are logged for the following backend modules:

- Theme Manager
- Basic Settings
- Orders
- Categories
- Articles

All changed values are logged in a module, together with the time of the change and the user who made it. This data is stored in several additional tables. To avoid overloading your database, logs can be deleted automatically after a certain time.

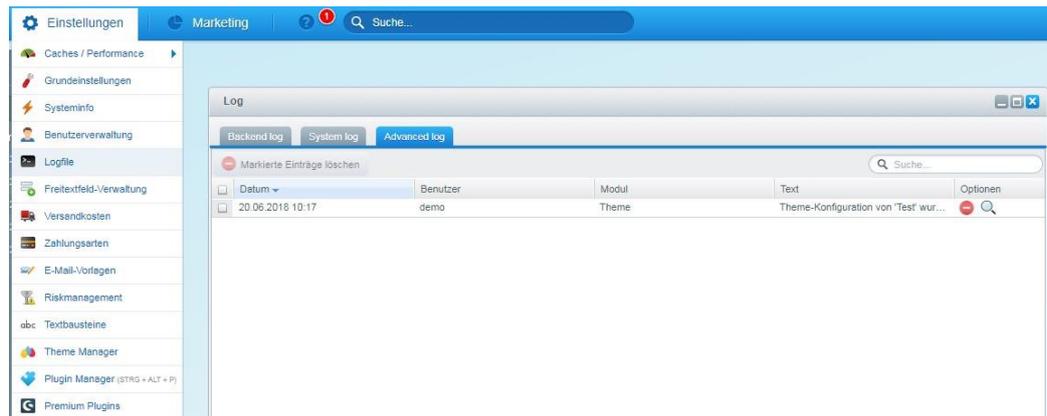

In order to be able to access the logs you have created, there is a new tab in the Log module in which all logs are clearly listed.

## 2 Installation

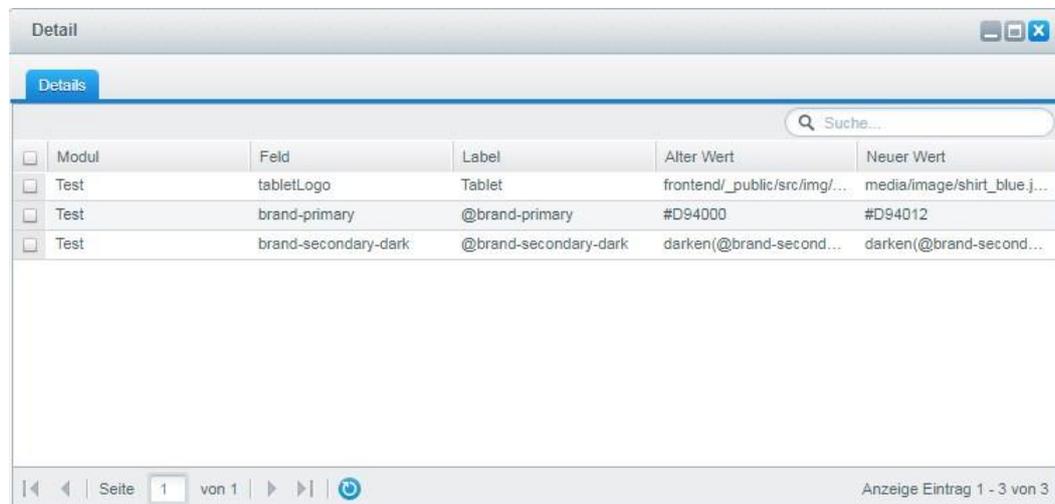

Install the plugin using the Plugin Manager (details on the Plugin Manager can be found in the [Shopware Wiki](#)). Afterwards the plugin works immediately.

## 3 Using the plugin

To view the logs, call up the tab "Advanced log" in the backend via the menu item "Settings" → "Logfile". Here you have an overview of the available logs, which can be searched and deleted as in the Shopware standard.

By clicking on the magnifying glass on the right you can call up the detailed view, in which all changed values are listed with their old and new values. This view can also be searched.

## 4 Settings

### 4.1 Storage Time

Here you can set how long (in days) the logs are to be stored in the database. If the logs are not to be deleted, enter 0 here.

ATTENTION: Especially in larger shops, the logs can overload the database at some point if they are not deleted regularly.

If you uninstall the plugin, all data and tables will be deleted, so make sure you don't need the log data anymore.

## 5 Support

Do you have any questions or would you like to customize this plug-in to your individual requirements?

Please use the Shopware plug-in support function in your [Shopware Account](#) .

Do you need help meeting your Shopware requirements? Please use our contact form at <https://rhiem.com/en/contact>, or send us an email at: [shopware@rhiem.com](mailto:shopware@rhiem.com).

We look forward to hearing from you!

## 6 License Agreement

Please note our license agreement: <https://rhiem-intermedia.de/license-agreement>

By using our plugin you confirm that you have read the license agreement and agree with it.
