## 1 Overview

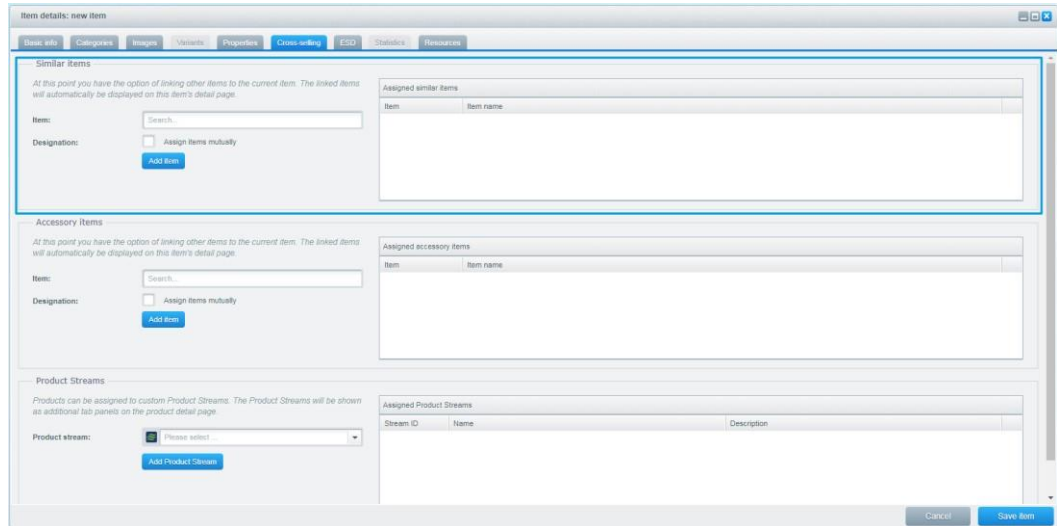

This plugin realizes an article comparison on the detail page without the user having to make a previous selection. For this purpose, the articles are used that have been stored as "Similar items" in the cross-selling tab of the respective article.

## 2 Installation

Install the plugin using the Plugin Manager (details on the Plugin Manager can be found in the [Shopware Wiki](#)), clear the cache and compile the theme. Then the plugin will work immediately.

### 3 Adding similar articles

The article comparison displays the articles that you have added to the similar articles in the master data. Simply open the cross-selling tab of the respective article and under "Similar items" add each article to be displayed in the comparison on the detail page.

*Cross-Selling Tab of an article*

### 4 Settings

You can adjust the display in the frontend in the plug-in settings. You have two setting options:

#### 4.1 Presentation

Here you can adjust the display in the frontend by selecting one of the following options:

Under the product description

Default setting, the comparison table is displayed directly below the item description.

Description Evaluations **0**

**Product information "Articles with similar products"**  
 Not only accessories, but also similar products can be displayed on the article detail page.

**Compare product**

Image		
Name	Articles with similar products	Kicker champ, individually changeable
	<input type="button" value="This article"/>	<input type="button" value="See details"/>
Evaluation		
Description	Not only accessories, but also similar products can be displayed on the article detail page.	Ita si ardor laxe eu Cogo arx subaudio. Os, color attero, an. Hi inservio quatenus/quatinus, eu....
Price	€119.00 *	€999.00 *

**Related links to "Articles with similar products"**

- > Do you have any questions concerning this product?
- > Further products by Example

Default setting "Under the product description".

As a separate tab on the detail page

The comparison table is displayed as a separate tab on the detail page.

Description Evaluations **0** Compare

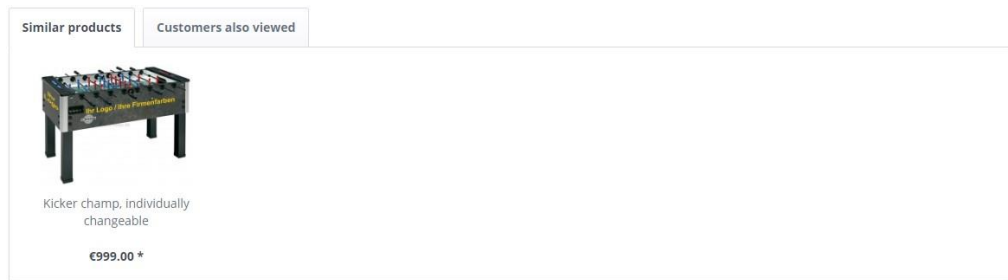

**Compare product**

Setting "As a separate tab on the detail page".

## 4.2 Show tab „Similar articles“?

Select whether or not to display the Similar Items tab on the details page. Since the articles in the comparison table are the same as the articles in this tab, they would be displayed twice. Specifically, this is the following tab:

Tab „Similar articles“

## 5 Support

Do you have any questions or would you like to customize this plug-in to your individual requirements?

Please use the Shopware plug-in support function in your [Shopware Account](#) .

Do you need help meeting your Shopware requirements? Please use our contact form at <https://rhiem.com/en/contact>, or send us an email at: [shopware@rhiem.com](mailto:shopware@rhiem.com).

We look forward to hearing from you!

## 6 License Agreement

Please note our license agreement: <https://rhiem-intermedia.de/license-agreement>

By using our plugin you confirm that you have read the license agreement and agree with it.
