1 Overview

The plugin enables the sending of e-mails to customers via customer streams.

2 Installation

Install the plugin using the Plugin Manager.

3 Using the plugin

You can open the mask of the plugin in the backend under Marketing, Mass mail.

Here you can select an e-mail template and a customer stream.

You can create customer streams under Customers, Customer Streams.

You can create a new e-mail under Settings, E-Mail Templates. The email templates that can be used in the plugin must be located in the User Emails folder.

After clicking on the 'Send e-mails' button, the selected e-mail template is sent to all customers who are captured by the selected customer stream.
